

BORA

Centipede Expanding Work Frame

 **4 x 8 ft
Workframe**

 **30-inch
Working Height**

 **6,000 lb
Weight Capacity**

Polymer P-Tops on each strut prevent marking on delicate surfaces and protect the frame from accidental saw blade contact during cutting applications.

The steel frame and flexible strut design absorb impact while maintaining structural integrity—built for durability in demanding work environments.

Compatible with the full range of Centipede accessories, including optional CK22T table tops, giving you a solid, versatile surface tailored to your specific tasks.

Comes with four Quick Clamps to secure materials in place and four X-Cups that hold 2x4s for added support, giving you everything you need to get started.

The BORA Centipede CK15S Work Table Set unfolds in seconds to create a spacious 4ft x 8ft work surface at a 30" height—no assembly required. With a 6,000 lb. capacity, it's built for serious work. Includes four Quick Clamps, four X-Cups, and a carry bag. Durable steel struts and anti-marking P-Tops offer strength and surface protection. The ultimate portable workbench for job sites, shops, or outdoors.
